DETAILED ACTION

This is in response to a letter for patent filed on August 29th, 2001 in which claims 1-48 are presented for examination. Claims 1-48 are pending in the letter.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-7, drawn to a method for promoting the purchase of digital form, classified in class 705, subclass 51.
 - II. Claims 8-33, drawn to a method for limiting access to feature in a multimedia file, classified in class 705, subclass 57.
 - II. Claims 34-48, drawn to a method of encouraging the purchase password for access feature, classified in class 705, subclass 59.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II and III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because patentably distinct. The subcombination has separate utility such as for promoting the purchase of digital form, limiting access to feature in a multimedia file and encouraging the purchase password for access feature.

Art Unit: 3621

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group I, II is not required for Group III, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
